

Do not pressure the state of New Jersey to weaken its Do Not Call rules to come into line with the FCC. The states rules do work and my family can finally eat dinner in peace. Life is not fair and for once, the unfairness falls on the businesses rather than the citizens. If they cry foul, so be it, if they want to survive, find another line of work. Do not relax the rules and cave to the bottom feeders of corporate society.

Thank you.
